

QUESTIONS & ANSWERS

Plasmaflo®

What is PlasmaFlo®?

PlasmaFlo® is a proprietary blend of proteolytic and fibrinolytic enzymes, concentrated plant extracts and potent antioxidants.

Why is PlasmaFlo® beneficial?

PlasmaFlo® is formulated to support the integrity of capillaries and improve the flowing properties of blood. PlasmaFlo® helps the delivery of vital nutrients, oxygen and stem cells throughout the entire body for optimum health.*

What are the ingredients in PlasmaFlo®?

Systemic Enzymes (proteolytic and fibrinolytic enzymes): to digest fibrin mesh and support a clear path for blood flow in capillaries*

Gotu kola, Ginkgo biloba and Lemon Bioflavonoids: supports the strength and flexibility of blood vessels and supports the integrity of capillaries*

Hydroxytyrosol (olive extract), Astaxanthin, Sea buckthorn berry and Cacao: well known for their role against oxidative stress in the blood*

PlasmaFlo® does not contain dairy, wheat, gluten, peanut, soy or corn allergens. There are no artificial flavors or colors. It is 100% vegetarian and non-GMO.

How do I take PlasmaFlo®?

Suggested usage: to obtain the optimum benefit from the enzymes it is recommended to take 2 capsules daily 30 minutes before or 2 hours after a meal. For adult consumption.

Can children consume PlasmaFlo®?

PlasmaFlo® is formulated for adult consumption.

Can pets consume PlasmaFlo®?

PlasmaFlo® is formulated for human consumption. We know of no reason that it may be harmful to pets. However, we have done no studies using the products for pet consumption. Please check with your veterinarian.

How does PlasmaFlo® support circulatory health?

The human ability to heal is remarkable and proper blood circulation at the capillary level is essential to ensure appropriate delivery of nutrients, oxygen, and cells for optimum health. Capillaries make up 95% of the total surface of all blood vessels extending into every region of the body where they serve as points of exchange between the blood and surrounding tissue. The body's natural ability to deliver stem cells is dependent on the health and integrity of capillary function and their ability to travel freely through unobstructed blood flow.

How does PlasmaFlo® support vascular components?

PlasmaFlo® is an exclusive formula containing a proprietary blend of potent enzymes, exotic plant extracts and powerful antioxidants. PlasmaFlo® supports 3 vital vascular components:

1. Vascular flow – PlasmaFlo® provides enzyme nutrition to support the digestion of fibrin mesh in the bloodstream to improve circulation in capillaries.*
2. Vascular integrity – PlasmaFlo® contains plant extracts that effectively support the integrity of capillary health.*
3. Vascular health – PlasmaFlo® contains antioxidants to provide optimum nutrition to help prevent the formation of fibrin and combat oxidative stress and vascular inflammation.*

What is the capsule made from?

As stated on the label, the vegetarian capsule is made from Hypromellose. Hypromellose is a cellulose derivative from plant fiber.

Is PlasmaFlo® certified Kosher and Halal?

PlasmaFlo® is not certified Kosher or Halal.

What is the shelf-life of PlasmaFlo®?

There is an expiration date on the bottom of each bottle. PlasmaFlo® has a shelf-life of 2 years from manufacturing. All bottles should be stored in a cool dry place.

Can PlasmaFlo® be consumed with other Cerule® products and other nutrients?

Yes, the Cerule products can be consumed together and were designed to enhance the beneficial effects of each other. We know of no known concerning interaction between the Cerule products and other nutritional supplements.

Are there any known nutrient-medication interactions with PlasmaFlo®?

If you have any health condition and/or are using any medication then consult your attending health care provider before consuming any nutritional supplement.

Proteolytic compounds are known to have anticoagulant properties. People who suffer from clotting disorders or who are on anticoagulant medications (often called, “blood thinners”) should consult their healthcare practitioner(s) prior to taking PlasmaFlo®.

For some people, due to their conditions and medications, they need to manage their intake of certain nutrients. Below are amounts of naturally occurring nutrients found in the plant based ingredients within PlasmaFlo®:

Iron - 0.12 mg per 2 capsules

Sodium - 16 mg per two capsules

Why does the PlasmaFlo® label state “consult your physician if you are pregnant or nursing”?

Pregnancy and nursing are considered special conditions. We recommend that your attending doctor(s) be made aware of any and all supplements consumed during this time. At this time, we do not advise PlasmaFlo® consumption during pregnancy.
